What is Advantage of Route Bus Usage?

What are the **potential problems of excessive car use** in a society dependent on cars in Palau?

- There are several potential issues!**
- road traffic congestion, environmental problems due to emissions
 - people lacking movement or exercise because they rely solely on cars
 - It creates a car-dependent condition, especially affecting vulnerable groups with mobility challenges who always need a car.

I see... and what are **the advantages of shifting from using cars to using buses** as public transportation?

- Shifting to public transportation, like buses, has several benefits!**
- It can save a significant amount of road space, alleviating traffic congestion.
 - It contributes to environmental preservation by reducing emissions through fewer cars.
 - Plus, you can save a lot on your travel costs!

Okay, let's create a new mobility culture by embracing public transport!
